Date of Birth – 11/26/17

Puppy Registration # SS029929

Breeders Agreement / Health and Hips Guarantee

This is a purebred puppy with AKC registration (full or limited). Breeder does not guarantee against any communicable diseases beyond 72 hours (3days) of buyers receiving puppy. The breeder guarantees the above puppy for 2 ½ years from date of birth against any inherited genetic defects that would be life threatening / altering to the dog. The diagnosis must take place within the first 2 ½ years for this claim to be valid. Dog must be treated by a licensed vet and all documents must be sent to the breeders vet for verification. Because 60% of all canine hip dysplasia is related to poor nutrition, we require that your precious puppy continue with the Life's Abundance Nutritional System for the first 26 months of his/her life in order to qualify for this 2 ½ year health

guarantee. Remember, an ounce of prevention is worth a pound of cure! If you continue with Life's Abundance Nutritional System for the first 30 months, this dog is guaranteed against any genetic inherited defect until it is 30 months of age. The OFA is the sole and only judge in determining hip dysplasia. A CERF certified veterinarian must confirm any hereditary eye defects. This genetically inherited health guarantee is for all internal organs and issues that are not visible on a routine physical examination. Exclusions to the guarantee are any issue found to be a result of color dilution (Silver/Charcoal/Fox red). We strive to produce the healthiest puppies we can by only breeding adults that have been vet screened and cleared to be sound animals. Most of our breeding adults are OFA and Eye certified, and passed with flying colors.

The above puppy is guaranteed against genetically inherited hip dysplasia for a period of 2 ½ years from the date of birth. If dysplasia is suspected, x-rays must be taken by a vet and sent to OFA for an official reading with abnormal results (mild, moderate, or severe). Breeder does not cover any form of dysplasia that is not genetic (i.e. Obesity, malnutrition, neglect etc.) to ensure this is not the case, puppy must be kept current on all regular vet checkups and vaccinations. Puppy cannot be bred prior to the 2nd birthday or this guarantee is null in void. If you have any hip related problems, you can send your x-rays to OFA for an official reading at anytime, the puppy does not have to be over 2 years of age for the readings just for permanent certification, the x-rays must be marked with puppies AKC # and a micro chip # to be valid. Breeder is not responsible for any vet bills or consequential damages incurred do to or related to any problems found.

If any problems arise and all documentation has been received and verified, the buyer will then be entitled to a replacement puppy of same sex and color in the next available litter or cash refund (Breeders decision). This guarantee is non transferable. Buyer is responsible for all shipping expenses for replacement puppy and will return original dog to breeder prior to receiving replacement pup or refund. If original dog is not returned it will void this contract entirely.

Breeder will release the above puppy to the buyer once it has been fully weaned and had its first set of shots and Micro-chipped. Pups will go home with AKC application, declaws removed, health records with vaccines and de-wormer given, 2 1/2 year health / hip guarantee, copies of pedigree, Avid chip registration. Puppies will be fed Life's Abundance all stages formula food prior to leaving breeders.

*****LIFETIME Free Replacement Puppy.** Because we believe so strongly that nutrition plays a very big part in the health of an animal, we are offering a *Lifetime Free Replacement Puppy Guarantee. Should you choose this, the lifetime guarantee stipulates that the puppy must be fed Life's Abundance Nutritional System & Agility Formula for their entire lifetime. The Agility Formula must be given starting when the puppy is 6 months old. The reason we have chosen to offer this option to our guarantee, is because so many dogs are acquiring serious life threatening health risks through poor diet and vitamin deficiency. We believe that these products provide the optimum nutritional benefits ensuring good health and longevity for the dog, which is why we are willing to stand behind this guarantee. If your Labrador Retriever does not reach its life

expectancy of 10 years, you will be eligible to get a free replacement puppy of equal value.

In regards to hereditary defects, there are never any guarantees that a dog would be free of a genetic disorder from past generations. But since we may not know if there are any potential weaknesses in a dog, we believe that the diet and lack of vitamins can exacerbate these conditions if found. Therefore by providing the dog with quality food and supplements, we are hoping to reduce the chance of these potential weaknesses from hindering their quality of life, should this ever occur.

Lifetime Free Replacement Puppy Information: - this guarantee does not include the vet check, CERF exam, shots, worming, transportation, carrier, or other fees. This Lifetime Free Replacement Puppy Health Guarantee is for the health of your Labrador Retriever, and does not cover accidental death, neglect, abuse, or injuries that your dog may sustain while being a part of your family. We believe that Life's Abundance Pet Food and Supplements are a great combination to provide your dog with optimal health, so that your Lab can live a long and happy life with your family!

Breeder is not responsible for any vet bills incurred or consequential damages once puppy leaves the breeding facility.

If at any time you have a problem or concern, we welcome you to call or e-mail us with any questions you might have.
